

## Announcing the Accessible and Disability-Friendly Badge for Churches!

Would you like a way to let your community know that your church building is accessible and your congregation welcomes persons of all abilities? The DisAbility Ministries Committee of The United Methodist Church has a new tool for you!

Based on your score on the annual Accessibility Audit for United Methodist Churches you may be awarded a badge for use on your congregation's website and Find-a-Church site so that people looking for an accessible place to worship know about your commitment to accessibility and inclusion. Door decals will communicate the same information to visitors who show up for worship.

For more information, contact Lynn Swedberg at [UMDisability@gmail.com](mailto:UMDisability@gmail.com). More information will be sent to all US annual conferences and posted soon at <https://umcdmc.org>.
