

# Interactive Whiteboard

## Innovate your communications, whether in-person or remote, with our interactive whiteboards.

Interactive whiteboards have limitless uses in businesses, education, and more. These smart boards and displays enhance meetings by engaging different learning and thinking styles of your teams, customers, students, and audiences. All to encourage innovative, engaging, hands-on collaboration.

With network and touch-screen capabilities, our interactive displays work well for meetings, remote working and learning, distributed teams, and much more.

Select the perfect display option for your office or classroom and ensure everyone on your team has a place at the table, regardless of where they are located. We offer displays from 21.5" to 86" with touchscreen, file editing and sharing, environmental sensors, and integration with conferencing solutions.

### Includes:

- Custom configuration, delivery, and setup
- Wall mount, keyboard, camera
- Training & custom in-room user guides
- 3-year Warranty

Custom leasing options are up to 60 months. Pricing includes setup, installation, and training.

Our specialists work with you to choose the technology that fits your business. Then, our team installs the technology to ensure functionality and ease of use. From there, we're available to support your team with training and ongoing support.
